Scalable for Any Business

Core Capabilities

Features That Transform Productivity

USER ACTIVITY MONITORING
Tracks employee computer interactions to optimize productivity and identify potential security risks.

TIME TRACKING
Accurately records employees idle time, productive time, and breaks providing insights into employee productivity and resource allocation.

INSIDER THREAT PREVENTION
Detects anomalous user behavior, prevents data leakage through USB controls, and safeguards sensitive information from internal threats.

ATTENDANCE MONITORING
Automates time and attendance tracking, generates precise timesheets, and tracks employee schedules, leaves, and overtime.

SCREENSHOT MONITORING
Captures screenshots at regular intervals to provide a comprehensive record of on-screen activity.

AI-BASED PII MASKING
Automatically identifies and obscures sensitive information within screenshots to protect privacy and ensure compliance.

USB DETECTION AND BLOCKING
Detects, monitors, and restricts USB device usage to safeguard sensitive data and prevent unauthorized access.
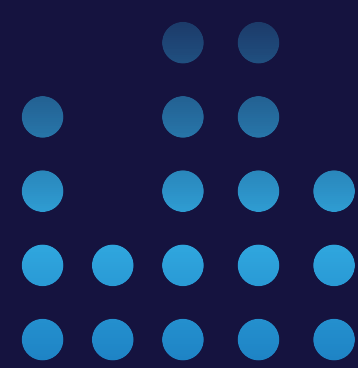

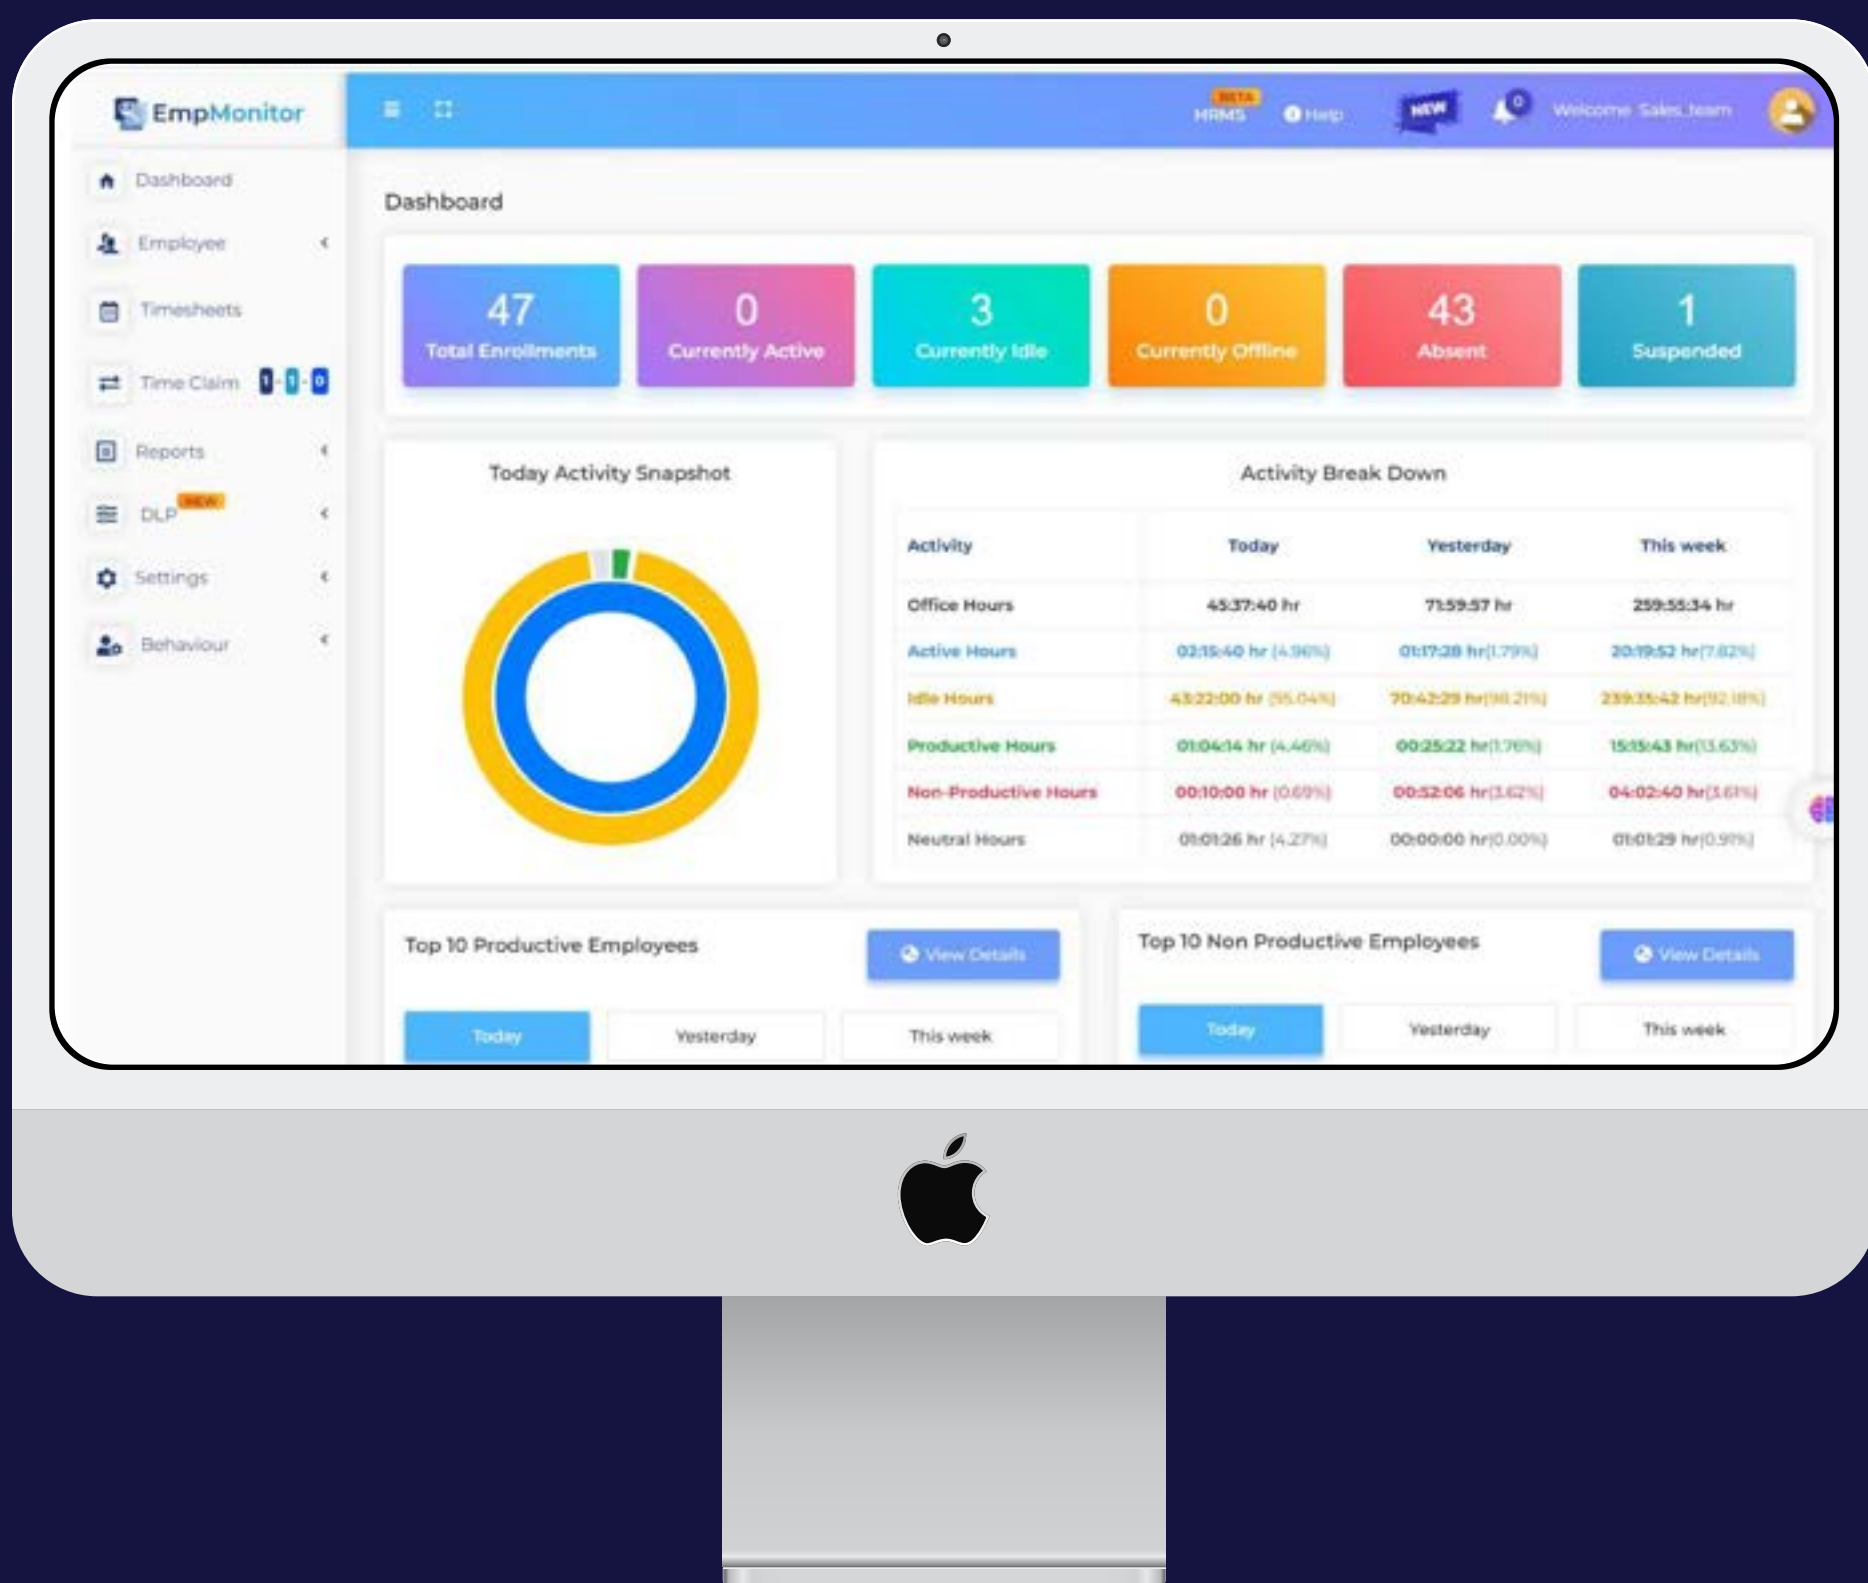

CUSTOMIZED REPORTS
Let you create automated reports on user activity, time spent, project progress, attendance, and more for data-driven decision-making.

ALERTS AND NOTIFICATIONS
Provides real-time updates on suspicious activity, and critical events to enable timely responses.
